## SKILLS

---

- |              |                |                |             |
|--------------|----------------|----------------|-------------|
| • JavaScript | • Redux        | • MongoDB      | • Tailwind  |
| • TypeScript | • React Native | • Firebase     | • Bootstrap |
| • React      | • Node.js      | • Supabase     | • HTML      |
| • Next.js    | • Express.js   | • Git / GitHub | • CSS       |

## EDUCATION / CERTIFICATES

---

### TechLift MERN Stack Bootcamp

*Oct 2022 – Jan 2023*

Contour Software Pvt. Limited, Lahore

- Completed intensive, project-based MERN stack bootcamp, acquiring good skills in React, Node.js, Express.js, and MongoDB.
- Successfully delivered a comprehensive project at the culmination of the bootcamp, showcasing proficiency in full-stack web development.
- Engaged in collaborative coding sessions and team projects, refining teamwork and communication skills.
- Developed strong problem-solving skills through practical coding exercises and debugging challenges during the bootcamp.

### MERN Stack Course

*July 2022 - Oct 2022*

eBridge - Professional Training Institute, Lahore

- It's a project-based bootcamp, learned about React for building user interfaces.
- Integrating a MongoDB database using Mongoose and utilizing Express framework to build APIs and server-side logic for web applications.

### BS Civil Engineering

*June 2018*

University of Wah

## PROJECTS

---

### E-commerce Website

- Frontend: Typescript, React, redux, axios, formik, yup
- Backend: Typescript, Node.js, Express.js, MongoDB, mongoose, jsonwebtoken, bcryptjs, joi
- Frontend hosted on Netlify and backend deployed on Cyclic.sh

### Exercise Tracker Web App

- Developed an Exercise tracking web app using React for the front end, Node.js and Express.js for the server, and MongoDB for the database.
- Integrated RESTful APIs for exercise activity creation, updating, and deletion, emphasizing efficient CRUD operations.
- User authentication logic is also implemented on the server side.

### News Website

- Developed a dynamic news website using React as the frontend framework.
- Integrated the News API to fetch real-time news articles and updates, providing users with current and relevant information.
